## **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

### ***Reasons for allowance***

1. The following is an examiner's statement of reasons for allowance:

None of the references either alone or in combination disclose or reasonably suggest an optical switching system comprising a signal input unit operable to input an optical packet signal; an optical-to-electrical conversion unit operable to convert the optical packet signal, which has passed through an optical filter that allows only signals with wavelengths within a predetermined range to pass through itself into an electric signal; an extracting unit operable to extract the electric label signal from the electric signal; an electric power level detecting unit; a port determining unit to determine a port to which the optical packet signal is to be output as recited in independent claims 1 and

2.

The most relevant references, Sato (U.S. Patent 5,568,575), Yonekubo (U.S. Patent 6,591,037) and Sato (U.S. 2003/0059154) disclose an optical switching system. However, none of the references disclose or suggest the optical switching system with all the limitations above.

Claims 1-3 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

2. The prior art documents submitted by applicant in the Information Disclosure Statement filed on 07/15/2004, have all been considered and made of record (note the attached copy of form PTO-1449). These documents also fail to disclose or suggest the highlighted limitations above.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer Doan whose telephone number is (571) 272-2346. The examiner can normally be reached on Monday to Thursday from 6:00am to 3:30pm, second Friday off.
